Career Objective

Computer Science graduate with hands-on experience building cross-platform mobile apps using Flutter, REST APIs, and Firebase. Passionate about scalable software solutions and eager to grow within a collaborative, enterprise-level team.

Technical Skills

Languages: Dart, Swift, Java, Python, C++, JavaScript, Go

Mobile: Flutter (Android & iOS), Responsive UI, Figma-to-Code

State Management: GetX, Provider, Bloc

Backend & API: REST API, FastAPI, JWT Auth, Role-Based Access Control

Databases: Firebase (Firestore, Realtime DB), Hive, MySQL, GetStorage

Tools: Git, GitHub, Android Studio, VS Code, Postman, Figma

Concepts: OOP, SDLC, Linux (Basic), SQL, Basic Networking, Problem Solving, Team Collaboration

Experience

Flutter Developer

Oct 2025 – May 2026

SparkTech Agency, Mohakhali, Dhaka

- Developed 8+ production-ready cross-platform mobile applications using Flutter & Dart.
- Integrated REST APIs with JWT authentication and role-based access control.
- Worked in Agile (Scrum) team — sprint planning, code reviews, Git collaboration.
- Converted Figma designs into pixel-perfect layouts for Android and iOS.

Projects

FamilyApp — Family Management System

▶ Play Store 🐙 GitHub

Flutter | REST API | JWT | Role-Based Auth | GetStorage

- Centralized household management: shared calendar, task assignment, and meal planning.
- Implemented RBAC and JWT for secure multi-user access across family members.
- Automated grocery list generation reducing manual planning effort.

Wuffoos — Pet Care & Sitter Platform

▶ Play Store 🐙 GitHub

Flutter | REST API | GetX | OAuth | Multi-language

- Dual-role platform (Pet Owner / Sitter) with seamless profile-switching.
- Real-time earnings dashboard and calendar-based booking lifecycle management.
- Multi-language (EN/ES) and OAuth login via Google, Apple, and Facebook.

Ayúdame — Multi-Service Platform

📱 Apk Link 🐙 GitHub

Flutter | Dart | REST API | Firebase | Provider

- Developed a multi-service platform connecting users with service providers, business owners, and event managers in a unified ecosystem.
- Built real-time service booking and management features with seamless API integration for scalable user interactions.

Education

Bangladesh University of Business and Technology

April, 2026

Bachelor of Science in Computer Science (CGPA: 3.06 / 4.00)

Dhaka, Bangladesh

- **Relevant Coursework:** Data Structures, Algorithms, Machine Learning, Database Systems
- **Project:** Kidney Stones Detected by CT Scan Images using Machine Learning Model

Languages

Bangla — Native | English — Professional Working Proficiency
